# BEX SPORT

HÖGANÄS | SWEDEN

member of TACTIC GROUP

The heart of Bex Sport is our passion to offer products that give joy. Joy to both young and old, among family and friends. We love to invent and produce games that can be enjoyed both indoors and outdoors. Simple rules that get the game started quickly, and when necessary, adjusting rules for everyone to enjoy.

Bex Sport's dedicated purchase team continually strives to provide the best quality and design in attractive packaging.

For over 33 years Bex Sport has designed, developed and marketed both out- and indoor games for all ages. Our brands have during the years grown stronger and are we are now represented worldwide.

## Sustainable & Eco-friendly

Bex Sport main achievement is to work for Sustainable Production and to be Eco-friendly. We work to minimize the use of natural resources, with the intention not to jeopardize the needs of future generations. Our main goal is that our products and packaging should be designed to be safe and ecologically. Wastes by-products should be reduced, eliminated or recycled and that the communities around workplaces are humanitarian respected.

Our intention is to take part of the global environment evolution. Some concrete examples are that we use plantation grown timber, replenishable wood and we are ongoing refining the development of our recyclable packaging. We believe if production is sustainable, then the environment, employees, communities, and organizations—all benefit.

## Code of Conduct

Bex sport has developed a code of conduct which is based on the UN's Global compact. All of Bex sports items are produced in factories that have signed our CSR contract. Bex sport works closely together with the factories and visit them many times every year. Each and every part of our range is made from the most environmentally friendly material and components available.

# BEX

Our garden games can be played by all ages, from young to old!  
Find your favorite and challenge your friends, relatives and family.

Bex original is made from the highest quality rubber wood. Rubber wood is a perfect material to use outside. The wood is very dense and is not negatively affected by water like other wood; this will give your game longevity.

Bex Kubb Family is made of high quality birch wood. The logging is done under supervision from the government. Birch wood is ideal for using outside as it is very hard and therefore very durable.

The rubber wood in Bex Original is an environmentally friendly choice. This wood comes from plantations where the trees are only cut down when the tree is no longer producing raw material used to make rubber. By their very nature plantation trees are replanted once harvested.

Some Bex Family Products are made of FSC® certified (FSC C171450) pine wood. The certification is ensuring the wood can be traced back to its sustainable source. Look for the FSC logo next to the product.

## KUBB PRO

511-1320-1

Gamesson has been a part of the BEX Sport Ab portfolio of brands since 2007. Gamesson provides table games in a wide range and different sizes that suits all kinds of environments and needs; From at-home play in a basement, to upscale hotels and bars. Our tables are made of high-quality materials and our larger models are up to tournament standard and can handle heavy use for years. At Bex Sport and Gamesson we work hard to ensure we have the best quality product at any given price range. With this we are able to meet our customers' expectations, no matter the budget.

We do this by having close contact with our manufacturers, keeping our assortment up to date as well as seeing how different materials work after use and time.

Our experience gives you the freedom to find the best table for you.

Gamesson – a table game for everyone!

### Did you know?

Most rules consider "over 360-degree shots", or "spinning" (using the palm of the hand to swiftly spin the bar all around) illegal. However, there are many rules variations – in some, the keeper is allowed to spin, in others as long as a goal is scored from a controlled position, rotations of the rod after striking the ball are permitted.

## Slate or Fibre table?

A slate table gives you the flattest table surface possible. It plays faster than a fibre board table and the bounce from the cushions are better.

If you are looking for a table for club or commercial use we recommend a slate table. Slate tables needs to be assembled but it's worth the extra effort.

A fibre board table is good for home use and ideal when you have to move the table sometimes. They are very easy to install. You just have to attach the legs.

## Gamesson Shuffleboards

We have delivered and installed our Gamesson shuffleboards in several restaurants, offices, hotels and in private homes.

All our shuffleboards are manufactured with a third-generation competition playfield. This constitutes stick-glued maple wood in 7,5-centimeter thickness. The sides and underside of the playfield are lacquered and – as opposed to the earlier generations – have fiberglass on the underside to maintain perfect humidity in the wood. Air humidifiers are not required for our shuffleboards.

Underneath the board there are adjusters that set to board to the wanted concavity. Normally the boards have a slight upturn on the sides, so that the pucks don't fall of the sides.

The top of the board is covered in polymer plastic for the perfect gaming quality.

### MIAMI

#### 14' Shuffleboard

### Our quality levels

**1st level - SILICONE**

100% Silicone It is only silicone that can withstand the salt content of the sea water without wiping out. Silicone is also very soft to your skin and adjust after your face.

**2nd level - PRO**

Material called TPR, it looks and feels like silicone but it is a mixture of pvc and silicone.

**3rd level - LEISURE**

Our leisure range is made from PVC.

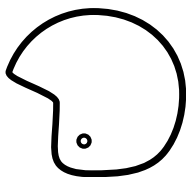

All three quality levels are completely free from phthalates.

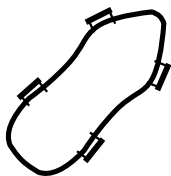

# SNOWZONE

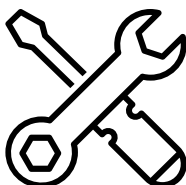

The cool design on our snowfoams are welded onto a high-gloss bottom for a quick slide down the hills. In between the layers is a foam rubber board that is comfortable and light for easy carrying up the hills again and again.

Bex Sport always recommend, wear helmets and gloves when riding these sledges, boards and carpets.

SOFT FOAM for your behind down the hills.  
SPACE SAVER when put in the garage.  
LIGHT WEIGHT is easy to carry.

Make your own sledges unique by choosing extra features or customizing existing ones.
